

7 Easy Ways To Make Money Online With No Website by SHANTELLE GOLDING

ウェブサイトを持たずにオンラインでお金を稼ぐ7つの方法

Absolutely anything from \$1 to several \$100,000 per month is achievable online. No Website OR List necessary. This article will show you the 7 fastest and most stupidly easy ways to make money online. You don't have to be a computer whiz but you do need to at least have access to a computer, an internet connection and a little self motivation.

1. Completing Surveys There are several sites that will pay between \$1 dollar to \$100 dollars just for you take a survey. Now when I say stupidly easy and fast ways to make money online, some sites will pay you to simply sign up. Yes, I have been paid between \$1 and \$13 to sign up to a survey site before even filling out a single survey form. Why??? You may be asking yourself why would a company pay for this. The reason they pay you to complete surveys is because companies are willing to spend loads of cash for in-depth information from their consumers to find out what the word is on the street about their product or services

I recommend Cash Crate and Survey Advise.

2. Ebay Trading E-Bay is a facility that allows you to sell just about any product online. You don't even need to have the items in your possession if you make use of a drop-shipper. Some drop shippers will offer you a free readymade website and your own website name (known as a domain name). This is one way to make easy money online without a website that is known to return a six-figure income.

3. Become an Affiliate By becoming an affiliate you will be paid to market products and services from a vast and ever growing amount of companies. Most people believe that they need to have their own website with loads of website traffic to become a successful affiliate making money online

but this is simply not true. What you will need is a domain name which you can purchase for between \$2 and \$10 dollars.

This domain name is your personal website name also referred to as a URL.

Upon purchase of your domain name you should have the option to forward your URL to the URL of the website you have chosen to promote. All you need to do is promote your website name. Sites like clickbank.com have lists of companies wanting affiliates to promote their sites.

4. Associated Content Associated content should be the number one stop for those people who frequently ask themselves, how can I make money fast online? Associated Content requires you to write content, which in other words for those who aren't familiar with the online language, content means articles.

Associated Content requires that you write articles for them, they will pay you anywhere from \$3 to \$40 for your content.

Most of the time however the bids that they place on your content are for much less than \$10. However, this is still a great way to make money online if you can type several articles per day.

5. Forum Booster Forum Booster is one of the most exciting ways to make quick money online. Within 48 hours of signing up you can start making money with Forum Booster.

As a forum booster, you get paid for every post you make on a forum. Your posts are tracked through a post tracking system. You can post an unlimited amount of posts and get paid around \$.10 a post!

Now lets do some math here. You could probably do around 100 posts an hour. Thats a little over a post a minute. For those 100 posts you get paid \$10! Now lets look at this on a yearly scale. Say you were to post for one hour every day. That's an extra \$3,650 a year.

Go to ForumBooster.com

6. Inbox Dollars This is a great way to make money easily online. It has more than 3.5 million members who get paid to take surveys, play games online, read emails, and other things. You get a \$5.00 bonus for signing up with inboxdollars.com and it is always free. They pay by check and will never ask you for money.

7. Sell Digital Products Digital products are items such as: Software, eBooks, music, movies, digital art, manuals, articles, certificates, forms, files, and anything else that can be downloaded. This route to make money online without a website is very easy. It is simple to research popular products and then you just need to obtain reseller rights. You can sell e-books and software that can be downloaded via the internet. This means that no inventory or shipping is involved. You can sell digital products via third party services. For example Payloadz.com will list your items in an online store. This means you don' t have to create the store, only follow up on listings.

So, as you can see, you can make \$1 to several \$100,000 per month with no website. Making money online can be stupidly easy. You don' t need a website but you do need to take ACTION!
